EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Chad W. Swantz, Reg. No. 46,329, on February 27, 2006.

The application has been amended as follows:

Claim 1, line 6: Remove "if needed,".

The following is an examiner's statement of reasons for allowance: The prior art, including that of Goyal et al. and Mills et al., teach patching systems but fail to teach the combination including the limitation of:

(Claim 1) "...adding a signature to the data tile to form a transferable file; and padding the transferable tile to ensure a same number of bytes in each transfer of portions of the transferable tile from the local drive to a flash memory of a RAID controller";

(Claim 11) "wherein the signature forms a portion of one or two data words, the data file being further padded with a terminal emulation program specific pattern after the signature in the data file if a last byte of the signature does not coincide with a last byte of a last data word".

Claims 2-10 and 17-22 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
